Student Name: _____ PSU ID: _____

Internship Company: _____

Internship End Date: _____ Graduation Term: _____

To fulfill the requirements for completing a Master of Science Degree in Electrical and Computer Engineering by the date listed above, the student will do the following schedule with my approval as their Advisor and as Director of the Graduate Program for the ECE Department.

Term: _____
ECE _____ credits
ECE _____ credits
ECE _____ credits

Term: _____
ECE _____ credits
ECE _____ credits
ECE _____ credits

Term: _____
ECE _____ credits
ECE _____ credits
ECE _____ credits

NOTE: The courses listed in this plan are recorded and can be viewed on-line but the courses are not on-line classes. Students are absolutely required to be in the classroom for midterm and final exams in order to get grades for the classes. ECE Instructors are used to this arrangement, since we do this same arrangement with local students who cannot attend all classes due to their work schedules. Instructors are fine with this as long as the students complete all HW and projects in a timely manner. Students are required to communicate with Instructors before a class begins and assure the Instructors that they will do this.

Douglas V. Hall
Graduate Program Director,
ECE Department
