

Position Number: D95198

Job Title: Assistant or Associate Professor TRANS

Department: Urban Studies and Planning

FTE: 1.0 benefits eligible

Job Type: tenure-track faculty

Posted Date: 9/26/2011

The Nohad A. Toulan School of Urban Studies and Planning seeks a tenure-track assistant or associate professor to contribute to our teaching and research in transportation modeling and related fields. Candidates must have a high level of skill and experience in transportation modeling and, ideally, integrated transportation and land use modeling. The successful candidate should be prepared to teach at the undergraduate and graduate level and advise graduate students, as well as pursue an active research agenda and be able to attract external funding.

We expect that a successful candidate will work closely with efforts in Oregon and beyond to advance the state of the art and practice in the field of transportation modeling and integrated land use and transportation modeling. The Oregon Modeling Steering Committee and the Oregon Modeling Collaborative based at PSU (<http://www.pdx.edu/omc/>) play a large role in those efforts, and the successful candidate would be involved with their activities in a significant way.

Applicants should have a Ph.D. in urban and regional planning, transportation, civil engineering, or other appropriate disciplines or be able to provide assurance of completion of a Ph.D. prior to appointment. The review of applications will begin December 16, 2011, and the position will remain open until filled. Applications, consisting of a letter of interest, c.v., and three letters of recommendation should be sent to the Search Committee Chair, School of Urban Studies and Planning, Portland State University, P.O. Box 751-USP, Portland, OR 97207.

We would also appreciate you sending an electronic copy (pdf files preferred) to TMsearch@pdx.edu. Any reference letters sent electronically should also be sent to that address. Inquiries (*but not materials*) can be directed to Professor Jennifer Dill, Search Committee Chair, at jdill@pdx.edu. The appointment is scheduled to begin September 16, 2012.

The Toulan School of Urban Studies and Planning is one of three academic units in the College of Urban and Public Affairs at Portland State University. The School offers five degrees: the B.A./B.S. in Community Development, the Master of Urban and Regional Planning, the Master of Real Estate Development and the Master and Ph.D. in Urban Studies, along with graduate certificates in Transportation, Real Estate Development, and Urban Design. Portland State University is a nationally acclaimed leader in community-based learning.

The campus is located along the tree-lined South Park Blocks of downtown Portland, and the School is in Urban Center at the crossroads of the city's light rail and streetcar lines. The School benefits from close working relationships with state, regional, and local governments that are progressive and innovative. The Oregon approach to transportation and land use planning and the protection of the environment has long been a model for the nation, and the region contains the only elected regional government in the country. PSU hosts the Oregon Transportation Research and Education Center (OTREC), a National University Transportation Center. Portland State University is an Affirmative Action, Equal Opportunity institution and welcomes applications from candidates who support diversity.
