How do faculty and students describe learning at PSU?

Provost Roy Koch and the Institutional Assessment Council (IAC) invite all faculty, staff, and students to attend an informational, interactive exhibit on the development of campus-wide learning outcomes.

Posters from academic departments and programs, student affairs, and student focus groups will be featured. The posters will display the variety of ways in which the campus-wide outcomes are expressed in PSU programs, including ways in which assessment feedback can improve the decision-making processes and student learning at PSU.

Come explore the exhibit, share your expertise, and learn more about how campus-wide learning outcomes fit into the local, state, and national conversation about what is important for student success in the 21st century.
