

College: School of Public Health

Department: Health Promotion

Program: Health Promotion

Degree: Master's

Graduate Program Learning Outcomes*

1. Apply theory in the development, implementation, and evaluation of health promotion interventions, programs, and policies.
2. Develop interventions and programs to effect change at multiple levels, including individual, community, organization, and policy.
3. Design and implement strategies to promote health.
4. Solicit and integrate input from community and organization stakeholders.
5. Design and deliver health communication messages.
6. Evaluate and interpret results from program evaluations and other research.
7. Define health problems, frame hypotheses, design research procedures, and outline methods of analysis.
8. Apply ethical principles that govern the practice of public health promotion.
9. Demonstrate cultural competency in health promotion among all social and cultural communities.

*As communicated in the website <https://ohsu-psu-sph.org/mph-health-promotion/>
