Memorandum of Understanding between the Honors Programs at Lane Community College and Portland State University

Lane Community College (LCC) and Portland State University (PSU) agree that students who successfully complete the Lane Honors Program at LCC and who are currently admitted at PSU may be automatically accepted into PSU’s University Honors Program.

The intent of this collaboration is to facilitate the transfer of LCC honors students into PSU’s University Honors Program and support their completion of a baccalaureate. The combination of courses required in the Honors Program at LCC has been identified as providing the student with sufficient rigor and content to facilitate their success at PSU.

Successful completion of Lane Honors Program includes all of the following:

- Completion of a minimum of six honors courses, including HON 201 Invitation to Inquiry and HON 202 Capstone;
- Earned 3.0 GPA or above;
- Completion of an ePortfolio; and
- Completion of an experiential learning component

Successful completion of Lane Honors Program will be verified by submission of the LCC transcript to PSU’s University Honors Program. Students must be admitted to PSU and complete the on-line application for PSU’s University Honors Program.

This collaboration will be in effect beginning Winter 2014 and will remain in effect for a period of three years, ending after Winter term 2017. At that time, the efficacy of this collaboration shall be re-evaluated and renewed as both parties see fit.
