Oregon Bioscience Association advocates for its members and the industry to create opportunity through community, collaboration and commercialization. Oregon Bio promotes the growth and quality of the bioscience industry in Oregon and continually seeks ways to support sustainability and growth in the life sciences, bioscience, biotechnology and device manufacturing industries and to create acceleration initiatives so members can achieve their full scientific, economic and social potential. Oregon Bio, a nonprofit membership association, is the Oregon affiliate of the Biotechnology Industry Organization.

Oregon Bio is seeking an intern for its website: [www.oregonbio.org](http://www.oregonbio.org).
