

Overall Description

On Floor 1 of the Engineering Building, the elevators are located towards the main entrance on the west side. Lobby L101 is bordered to the east by corridor C101 leading to suite 100, the elevators, stairwell S000-09, lobby L102 and corridor C102. The elevator lobby is bordered to the east by a large office space that is just east of corridor C101 and lobby L101. The large office consists of suites 100, 101A, 101B, 101C, 101D, 101D and 101E. Within the large office space, there is a corridor C100 that is located just west of the suites 101D and 101E. At the very north entrance, corridor C102 leads to suites 102, 103, and 104. Corridor C106 is located just southwest of the elevators and lobby and leads to suites 115, and 112; and an exit when heading west. Corridor C107 is located directly south of the elevator E169 and leads to suites 115, 116; stairwell S112; and an exit when heading south. Corridor C105 is located on the north west corners of corridors C106 and C107 that leads towards the restrooms in rooms 106 and 105; suites 104, 107, 108, 109, 130, 145, 150; and an exit when headed east. Corridor C104 is located just east of the men's restroom in room 105 along corridor C105 that leads to suite 103 and corridor C103. Corridor C103 is located just west of corridor C104 and south of suite 103 that leads to suite 102A. Corridor C109 is accessible through the west facade that is just south of the retail space in suite 110.

Restrooms

Restrooms are located in corridor C105 just east of the lobby and elevators. Room 105 is the men's restroom located to the east and room 106 is the women's restroom located to the west. An all-gender restroom numbered 116 is located in corridor C107.

Wheelchair Accessible Entrances and Exits

Wheelchair entry into the building can be made via several entrances on the First Floor. The main entry is along SW 4th Avenue and entry can be gained using the sidewalk. The northside of the building features three accessible entries. The southside has two wheelchair accessible entrances.

Elevators

Two elevators are located centrally on the west side within the building in the lobby L101. Both elevators E168 and E169 provide access to all floors.

Stairs

Stairwell S000-09 is the main stairwell and is located across from the elevators and just south of the main entrance at the corner of corridor C101 and corridor C106. The main stairs grants

access to the Fourth Avenue Building Lower Level through Floor 5. Stairwell S106 is located at the end of corridor C109 and has access to the lower level parking in the Fourth Avenue Building. Stairwell S107 is located near the southeast entrance of the building and can access the lower level parking in the Fourth Avenue Building. Stairwell S110 is located next to stairwell S113 and is not accessible to the public. Stairwell S111 is located on the southeast side of the building entrance and is not accessible to the public. Stairwell S113 is located outside on the Southside of the Building and has access to Floor 1 only.

Overall Description

On Floor 2 of the Engineering Building, the elevators are located near the stairwells S209 on the west side of the building. The elevator lobby is across from S209 and bordered to the west by corridor C201 providing access to suite 200, stairwell S209, corridor C205, and corridor C207. At the north end of C201 is office suite 202. Within this suite, there is a lobby (Room 200), a reception area (Room 201), and various offices and conference rooms ranging from 202A to 202V. Corridor C203 within the suite is located on the far eastside and runs north to south leading to the kitchen (202P), two office spaces (202M & 202N), and corridor C204 heading west back to the elevator lobby. Corridor C204 turns into C205 and both are located in the center of the floor. The northside of C204 leads to suites 207, 206, 205, the women's restroom in 204, the men's in 203 while it's southside leads to 225, 226, 230, and C208. Corridor C205 is located just south of stairwell S209, connects with C204 to the east, and leads to 220, 215, and study area 211 heading west. Corridor C206 is located towards the west side of corridor C205 and leads to suites 212, 210, 280, and 286; and stairwell S210 when heading south. Corridor C207 is located directly south of corridor C201 and leads to suite 275 and corridor C209 when heading south. Corridor C209 is located at the very south end of corridor C207 and leads to suites 280 and 275; and stairwell S210 when heading west and leads to suites 270 and stairwell S211 when heading east. Corridor C208 is located at the very east ends of corridors C204 and C209 that leads to suites 240, 260 and 265; and stairwell S211 when heading south.

Restrooms

Restrooms are located at the end of corridor C204 just east of the lobby and elevators. 203 the men's restroom located to the east and 204 is the women's restroom located west.

Wheelchair Accessible Entrances and Exits

Wheelchair access to Floor 2 is made by an elevator and can be accessed through the First Floor.

Elevators

Two elevators are located centrally on the west side of the building. Both elevators E268 and E269 provide access to all floors.

Stairs

Stairwell S209 is located at the end of the corridor C201 on the west side of the floor across from the elevators. This stairwell has access up to the Fifth Floor and down to the Lower Level of the Fourth Avenue Building. Stairwell S210 is located at the end of corridor C206 and corridor C209. This stairwell has access to the First Floor through the Fifth Floor. Stairwell S211 is located at the end of corridor C208 on the southeast side of the building. This stairwell has access to the First Floor through the Fifth Floor.

Overall Description

On Floor 3 of the Engineering Building, the Elevators are located centrally on the west side of the building. The elevator lobby is bordered to the west by corridor C301 and stairwell S300 which then leads into corridor C304 and corridor C306. The elevator lobby is bordered to the east by a large office space consisting of suites ranging from 301A to 301W. At the very east side of the large office space is a corridor C302 that leads to the kitchen, two offices in 301N and 301P and corridor C303 when heading south. Corridor C303 is located on the south end of corridors C301 and C302 that leads to suites 325, 306, 305, 304 and restrooms in 303 and 302. Corridor C304 is located to the west at the south end of corridor C301 that leads to suite 315 and study area in 311 heading west. Corridor C305 is located just east of the study area in 311 and leads to suites 312, 310, 390 and 385 heading south. Corridor C306 is located just south of corridor C301 and leads to suites 315 and 370; and corridor C308 when heading south. Corridor C308 is located at the south end of corridor C306 and leads to suites 375 and 380; and stairwell S310 when headed west and leads to suites 370 and 365; and stairwell S311 when headed east. Corridor C307 is located on the south end of corridor C303 and the east end of corridor C308. This corridor leads to suites 340, 342, 365, and 360; and stairwell S311.

Restrooms

Restrooms are located in corridor C303 just east of the lobby and elevators. 302 is the men's restroom located east. 303 is the women's restroom located west.

Wheelchair Accessible Entrances and Exits

Wheelchair access to Floor 3 is made by elevator and can be accessed through Floor 1.

Elevators

Two elevators are located centrally on the west side of the building. Both elevators E368 and E369 provide access to all floors.

Stairs

Stairwell S309 is located at the end of corridor C301. This stairwell has access up to the Fifth Floor and down to the Lower Level of the Fourth Avenue Building. Stairwell S310 is located at the end of corridor C305 and corridor C308 at the southwest side of the building. This stairwell has access to the First Floor through the Fifth Floor. Stairwell S311 is located at the end of corridor C307 on the southeast side of the building. This stairwell has access to the First Floor through the Fifth Floor.

Overall Description

On Floor 4 of the Engineering Building, are located centrally on the west side of the building. The elevator lobby is bordered to the west by corridor C401 and stairwell S409. The elevator lobby is bordered to the east by a large office suite which includes a lobby (400), a reception area (401), and various rooms and cubicles (suite 402). To the south of C401 are corridors C404 traveling east, C405 traveling west, and C407 to the south via a set of typically open fire doors. C404 is an east-west corridor immediately to the east of C401 and just south of the elevators that leads to suites 407, 406, 504, 404, 403, and corridor C403 leading to the back of suite 402 when headed east to north from west to east and leads to suites 421, 425, 430, 432, corridor C408, 442, and 450 when headed to south from west to east. C405 is an east-west corridor immediately to the west of C401 and just south of the main stairs (S409). The north of C405 overlooks the main stairs and ground floor. To C405's south are rooms 420 and corridor C406. At the end of C405 is a study lounge (411). C406 is a north-south corridor and the furthest west corridor to the south off of C405. Heading south in C406 from C405 to the west/right are rooms 410 and 495. To the east/left is 412. C407 is a north-south corridor and is the central corridor south of C405 and immediately south of the elevators. Heading south in C407 from C405 are rooms 420 and 485 to the west and 423 and 480 to the east. C408 is a north-south corridor and the further east corridor south off of C405. To the south of C408 is C409. Heading south on C408 from C405 are rooms 440, 445, 460, and 465. C409 is an east-west corridor and the southernmost corridor. It is connected to C406, C407, and C408. The only feature to the south of C409 are small lounge study areas in the center and eastern and western corners. To the west of C409 is stairwell S410 and its east stairwell S411. Traveling west to east in C409 along its north side are C406, 490, 485, C407, 480, 475, 470, and C408.

Restrooms

Restrooms are located in corridor C404 just east of the lobby and elevators. 403 is the men's restroom located to the east and 404 is the women's restroom located to the west.

Wheelchair Accessible Entrances and Exits

Wheelchair access to Floor 4 is made by elevator and can be accessed from Floor 1.

Elevators

Two elevators are located centrally on the west side of the building. Both elevators E468 and E469 provide access to all floors.

Stairs

Stairwell S409 is located at the end of corridor C401. This stairwell has access up to the Fifth Floor and down to the Lower Level of the Fourth Avenue Building. Stairwell S410 is located at the end of corridor C406 and C409 at the southwest side of the building. This stairwell has access to the First Floor through the Fifth Floor. Stairwell S411 is located at the end of corridor

C408 and C409 on the southeast side of the building. This stairwell has access to the First Floor through the Fifth Floor.

Fifth Floor
7 of 9

Overall Description

On Floor 5 of the Engineering Building, the elevators are located centrally on the west side of the building. The elevator lobby is bordered to the west by corridor C501 and stairwell S509. The elevator lobby is bordered to the east by a large office space consisting of a lounge in 201,

a reception area in 501 and suites ranging from 502A to 502S. Corridor C503 is located within the large suite at the east end of the office space. The corridor is just east of the kitchen in 502M and leads to suites 502K, 502L and corridor C504. Corridor C504 is located directly to the south of corridor C501 and east of C505 that leads to suites 506 and 505; the restrooms in 504 and 503; and study room in L512 on the north side of the corridor heading east. On the south side, the corridor leads to suites 525 and 530. C505 is located to the west of C501 and leads to suite 520 and study area in 511 when headed west. C506 is located just east of the study area in 511 and leads to suites 512, 510, 595, and 590; and corridor C509 when headed south. C507 is located just south of corridor C501 and leads to suites 520 and 580; and C509 when headed south. C509 can be accessed at the very south end of corridor C507. This corridor leads to suites 580, 585 and stairwell S510 when headed west and leads to suites 575, 570, 565, and stairwells S511 and S513 when headed east. C508 is the very east corridor on this floor and can be accessed by heading east on corridor C504 and heading south towards suites 540, 550, 585, and 560.

Restrooms

Restrooms are located in corridor C504 just east of the lobby and elevators. 503 is the men's restroom located to the east and 504 is the women's restrooms located west.

Wheelchair Accessible Entrances and Exits

Wheelchair access to Floor 5 is made by elevator and can be accessed from Floor 1.

Elevators

Two elevators are located centrally on the west side of the building. Both elevators E568 and E569 provide access to all floors.

Stairs

Stairwell S509 is located at the end of corridor C501. This stairwell has access down to the Lower Level of the Fourth Avenue Building. Stairwell S510 is located at the end of corridor C506 and C509 at the southwest side of the building. This stairwell has access down to the First Floor. Stairwells S511 and S513 are located at the end of corridor C508 and C509 on the southeast side of the building. This stairwell S511 has access down to the First Floor.

Overall Description

The Engineering Building Penthouse is restricted access. It is reached by means of the Southeast stairwell, S613, which descends down to the Floor 5.

Overall Description

The Engineering Building Roof is restricted access. It is reached by means of the Southeast stairwell, S613, which descends down to the Penthouse.
