

Overall Description

The basement can be accessed via stairwell S1 or elevator E01 located in the east portion of the building and stairwell S2 in the northwest corner of the building. When accessing the floor from the main stairwell, S1, or the elevator, E01, you enter into a lobby area, L02, that has access to a men's restroom directly west and room 5 and 5A to the southeast. When heading east, into the southern portion of the building, you are led down ramp C1 which leads to corridor C2. C2 has access to rooms 8 (a single-occupancy, all-gender restroom) 9, and 11. A small stairwell leads from C2 to C5, which contains rooms 11, 14 (a woman's restroom), and 15. The mechanical spaces in corridor C5 can only be accessed via a small stairwell leading from C2 and C3. When heading into the northern portion of the building from the stairwell and elevator, L02 leads into a secondary lobby, L01, which has access to room 52 and corridor C4 to the west, room 51 to the north, and room 55 to the east. Corridor C4 is located off of lobby L01 and provides access to rooms 49, 45, and 43 to the north, hallway V1 to the west, and room 44 to the south. Hallway V1 holds access to room 39 to the north, stairwell S2 to the east, and corridor C3 and room 17 to the south.

Restrooms

A men's restroom, all-gender restroom, and women's restroom are located in the basement of PKM. 04 is a men's restroom that is located centrally in the building and can be accessed by lobby L02. Room 8 is a single-occupancy, all-gender restroom that is located centrally in the building and can be accessed by traveling down the C1 ramp into corridor C2. Lastly, room 14 is a non-ADA compliant women's restroom located centrally in the building and can be accessed by a stairway in corridor C5.

Wheelchair Accessible Entrances and Exits

Wheelchair access to the basement is made by elevator E01 and can be accessed from Floor 1. Corridor C5, which contains rooms 11, 14 (women's restroom), and 15, is not wheelchair accessible as entry can only be made by a small set of stairs.

Elevators

One elevator, E01, is located in the east corridor of the building from hallway L02. Elevator E01 provides access to all floors within the building except for the roof.

Stairs

Two stairwells, S1 and S2, located in the basement provide access to all floors within the building. S1 is located in the eastern corridor of the building, through corridor 55C, and is the main access to all the floors as it can be accessed directly from street-level on Floor 1. Another stairwell, S2, is located in the northwest corner of the building and accessed through hallway V1.

Overall Description

Parkmill's main building access is to the first floor via street access from SW Park Ave. A secondary, limited-access stairway entrance can be made from the parking lot on the west side of the building. Upon immediately entering via street access, you enter into waiting area V101 and can access room 102 (a single-occupancy, all-gender restroom) to the north, hallway V102 that gives access to room 183 and limited-access sections in both the north and south portions of the building, and stairwell S101. Room 183 is a large central classroom that exits to the west corridor C102 which gives access to room 137, C101, room 133, bathroom 131, room 130, bathroom 129, and access to restricted-entry to C103 and C105.

Restrooms

An all-gender restroom, women's restroom, and men's restroom are located on the first floor of PKM. 102 is a single-occupancy, all-gender restroom that is located northeast in the building and can be accessed by V101. Room 129 is a women's restroom that is located in the southwest portion of the building and can be accessed only through restricted-access 150 to the north, restricted-access to C105 to the south, or by the north stairwell, all leading into C102. Lastly, room 131 is a men's restroom located at the west end of the building and can be accessed only through restricted-access 150 to the north, restricted-access to C105 to the south, or by the north stairwell, all leading into C102.

Wheelchair Accessible Entrances and Exits

Wheelchair entry to the first floor is made through the street entrance from SW Park Ave or by elevator E01 which can be accessed from the basement and second floor.

Elevators

One elevator, E01, is located in the east corridor of the building and can be entered from hallway V102. Elevator E01 provides access to all floors within the building except for the roof.

Stairs

Two stairwells, S101 and S102 provide access to all floors within the building. S101 is located in the eastern corridor of the building and, as the main access, can be accessed after entering the building from street level. Another stairwell, S102, is located in the northwest corner of the building and accessed through hallway C101 from C102.

Overall Description

PKM Floor 2 can be accessed via stairwell S201 or elevator E01 located in the east portion of the building and stairwell S202 in the northwest corner of the building. When accessing the floor from the main stairwell, S101, or the elevator, E01, you enter into corridor C204. C204 provides access to room 250 and 201, all-gender restroom 202, utility closet 203, and rooms 205, 206, 207, 213, 215, and 259. Heading north and then east, C204 leads to C206 which gives access to 250, 249, 247, 245, 243, 239, 291, and 293. Heading south and then east, C204 leads to C203 which gives access to 213, 215, 217, 219, 221, 223, 225, 227, 261, and 275. Both C203 and C206 lead into C202 which gives access to a woman's restroom in 229A, copy room 229, a men's restroom in 231, room 233, stairwell S102 byway of C201, and rooms 279, 277, 275.

Restrooms

An all-gender restroom, women's restroom, and men's restroom are located on Floor 1. 102 is a single-occupancy, all-gender restroom that is located northeast in the building and can be accessed through C204 by way of V201. Room 229A is a women's restroom that is located in the southwest portion of the building and room 231 is a men's restroom located at the west end of the building. Both restrooms can be accessed byway of S201 or E01 opening into C204, then traveling south into C203, traveling west in C203 until entering into C202 which leads to both respectively.

Wheelchair Accessible Entrances and Exits

Wheelchair access to the second floor is made by elevator E01 and can be accessed from Floor 1.

Elevators

One elevator, E01, is located in the east corridor of the building from C204. Elevator E01 provides access to all floors within the building except for the roof.

Stairs

Two stairwells, S201 and S202 provide access to all levels below Floor 2. S201 is located in the eastern corridor of the building, from C204, and is the main access to all the floors. Another stairwell, S202, is located in the northwest corner of the building and accessed through corridor C201.

Overall Description

The Roof is restricted access. It is reached by means of the north stairwell, S102, and a restricted ladder entry.
