**MSF Waiver Policy:** Students may be eligible for waiver of required courses in the MSF program. A waiver is based upon the student holding an undergraduate degree (earned within the previous seven years) in the specific discipline for which the waiver is sought. Specifically, the following courses may be considered for waiver: FIN 516 (2), ACTG 550 (4), and BA 522 (1). A student can waive a maximum of 4 credit hours, thus reducing the required number of hours in the degree program. Students must apply for waivers only after being admitted and during the Summer prior to entering the program.
