What is an ambassador?
- The MCECS Ambassadors are a team of undergraduate student employees that represent the Maseeh College for recruitment and outreach purposes.
- Ambassadors are placed into a position of leadership and service, and must have an enthusiasm for engineering and/or computer science.

What is an ambassador’s job?
- MCECS Ambassadors work with the MCECS Dean’s Office to represent the college to classrooms, prospective students and many other audiences.
- You may serve as a tour guide, deliver presentations, lead outreach activities, or assist with co-curricular activities.

An ambassador’s goals are:
- Inspiring more students and underrepresented populations to consider Engineering and Computer Science as a career.
- Improve student persistence by providing support for engineering students.

Required time commitment:
- Each ambassador will work no more than 20 hours per month.
- Must attend monthly business meetings.
- Available to work some evenings and weekends.
- Flexible schedule to complete projects or initiatives.
- Attend two yearly training and team building events.
