

Initiative for Community & Disaster Resilience (ICDR) Speaker Series – Part 22

Thursday, December 12 @ 12:30pm-2:00pm
PSU Urban Center Building – Parsons Gallery (Room 212)
506 SW Mill St, Portland, OR 97201

NW Natural Energy System Resilience Report

*A Joint Presentation by
NW Natural and Portland State University*

Speakers from NW Natural and PSU will present a study that focused on Renewable/Compressed Natural Gas (R/CNG) for Transportation System Resilience. The PSU Center for Public Service (CPS) and Northwest Economic Research Center (NERC) study team employed a systems approach that considered stationary infrastructure and included the transmission and distribution system and storage. The speakers will address the background, findings, conclusions, and recommendations of the study.

Speakers:

Chris Kroeker, Natural Gas Vehicle Product Manager, NW Natural

Rick Williams, Senior Fellow, PSU Center for Public Service

Peter Hulseman, Senior Economist, PSU Northwest Economic Research Center

Katelyn Kelley, Research Assistant, PSU Northwest Economic Research Center

Hoang Nguyen, Research Assistant, PSU Northwest Economic Research Center

Bill Henry, Graduate Student, PSU Engineering and Technology Management
