Approve Minutes of May 11th, 2011
Ms. Jaramillo moved, Mr. Akins seconded, and the subcommittee unanimously approved the minutes of the LECC Community meeting on May 11th, 2011 with three changes.
1) Correction of the data listed under the Minutes section.
2) Mike Stafford’s affiliation changed to Criminal Justice Commission.
3) The Review of Recommended OSP data collection points under Data Review Subcommittee Update should now read: Major Durbin reported to the subcommittee that the Oregon State Police had decided to limit collection of search data to only those searches involving the driver or the vehicle and to eliminate electronic data collection of searches involving the passenger. The committee discussed pros and cons of the action by OSP and acknowledged the limitations of OSP’s ability to collect more detailed data about searches.
Future Funding Subcommittee Update
A letter of inquiry was sent to Spirit Mountain for a $45,000 grant, a response should be received by the end of July.
Mr. Fidanque moved, Ms. Jaramillo seconded, and the committee unanimously authorized Dr. Renauer to explore the use of someone with the knowledge and experience of Mike Stafford to investigate funding options. Action: Dr. Renauer

Data Review Subcommittee Update

The LECC Data Review Subcommittee meeting was held this morning. Chair Akins updated the committee on the morning meeting.

Re-discussion of Stop/Search Paragraph
The committee addressed concerns about the statement adopted during the May 11th, 2011 meeting regarding the purpose of Stop/Search Data. The concerns included determining whether the statement was in conflict with the original intent of the committee and the choice of language in the paragraph. The committee determined more work was needed on the summary statement and this topic would be brought before the full committee during the afternoon meeting.

The full committee discussed in depth the proposed language contained in the May 11th minutes and concluded that some revisions to that language are appropriate and the committee will discuss this further by email between now and the September meeting. A draft will be circulated by Dr. Renauer that contains the material directly before and after the proposed statement in the report.

Status Update on Stop/Search Data
There were no new updates on the collection and analysis of Stop/Search Data. The committee discussed developing a wish list of data review efforts committee members would like to see. It was suggested that future meetings could entail updates from Hillsboro PD and Beaverton PD to hear about the status of their data collections efforts. The committee expressed an interest in having the public perceptions survey repeated soon. Dr. Renauer will explore funding possibilities for the next survey. Action: Dr. Renauer

Review of Recommended OSP data collection points
There were no new updates regarding the review of recommended OSP data collection points.

A training has also been tentatively scheduled in the Hood River tribal area on October 10th, 2011 after requests were made for more outreach to the tribal community.

b) Update on Curriculum Development for Follow-Up Trainings
The follow-up training curriculum was tested with the Eugene Police Department on June 9th. The curriculum has been amended after receiving feedback from attendees. In the Fall there is one follow-up training scheduled in Junction City, two in Lake Oswego, and two in Columbia County. Eugene and Corvallis have both expressed interest in using the follow-up training as in-service training this year.
