Todd Anderson, Tillamook County Sheriff
Henry Reimann, Hillsboro Police Department
Gilbert Carrasco, Professor of Law, Willamette University
Suzy Isham, Department of Public Safety Standards and Training
Scott Akins, Professor, Department of Sociology, Oregon State University

Guests
Lily Caceres, Oregon Youth Authority, Office of Minority Services

Welcome / Introductions
Justice Peterson welcomed everyone as Chair of this meeting via teleconference.

Approve Agenda
The agenda was approved with the addition of including “membership” to the agenda items.

Approve Minutes of May 12, 2010
Mr. Fidanque moved, Chair Peterson seconded, and the committee unanimously approved the minutes of the LECC Full Committee meeting on July 14, 2010.

1 Law Enforcement Contacts Policy and Data Review Committee (LECC) Meeting Minutes – July 14, 2010
Data Review Subcommittee Update
The LECC Data Review Subcommittee meeting was held this morning.

The subcommittee further discussed the three step plan below, developed at the previous meeting, designed to increase stop data collection and outreach efforts. The discussions lead to the following work plan:

1) Step 1:
   a. Data Review Committee needs to form agreements on what analyses & data collection they want done and what they see as the benefits.
   b. Develop a PowerPoint or video demonstrating what some departments have gained from stop data analyses and how they’ve been able to use the analyses to address public concerns, etc.

2) Step 2:
   a. Identify select Administrators or departments that may be interested in data collection.
   b. Justice Peterson could personally invite the selected administrators to a lunch meeting to create the initial discussion and presentation of our efforts.

3) Step 3:
   a. Discuss with select County Commissioners and City Council members the pros and cons of approaching data collection through their advocacy.

Committee members agreed that Step 1, part A is still unfinished and may require an entire day’s discussion coming to agreement. Dr. Renauer will prepare a draft of Step 1 part A for the September meeting, committee members should comment on the draft before the meeting.

Action: All members of Data Review Committee

Dr. Chaiken explained to the subcommittee that he received the OSP data and that there was more data for 2008-2009 then in the past. This new data differentiates search types, which should make for more thorough analysis. Dr. Chaiken will conduct the analyses that have been used for the OSP data in the past and submit a report to the LECC. He will then explore the new search codes and the data by district. Any analysis of nighttime vs. daytime stop will be conducted by PSU staff at a later date. Action: Dr. Chaiken

Community Relations Subcommittee Update
The LECC Community Relations Subcommittee meeting was held this morning.

Ms. Covelli updated the committee on the Tactical Ethics: Perspectives on Profiling training program. There have been five additional trainings since the May meeting, four regional and one in-service. There were some issues with the Ashland training, because Ashland PD suggested cancelling the training 48 hours before the training was scheduled.

Action: Dr. Chaiken
to be held. However, the training was held, due to the inability to cancel all of the arrangements upon the short notice. Dr. Chaiken attended this training and gave the staff his feedback. There are four more trainings expected for the fall, three in-service training with Albany PD as well as a presentation for the Animal Control Council of Oregon.

Action: Dr. Renauer and Ms. Covelli

Ms. Covelli reported to the subcommittee that the advanced training in Los Angeles was successful; the trainers received helpful information about how to develop follow up training. The training also helped the trainers understand how to deal with less dynamic groups and how to navigate difficult conversations. Ms. Covelli will be working with Lt. Reinmann and the trainers to create some follow up trainings that include some specifics to Oregon, including our search laws and race related history in Oregon. Action: Ms. Covelli and Lt. Reinmann

Dr. Renauer reported we need to assess what impact the trainings are having on officer attitudes to further our evaluation efforts. The staff had begun launching the follow-up survey. St. Helens will be the first to pilot the online survey and Marion County will be piloting the face to face survey. The staff will be making contacts with Chiefs and Sheriffs of agencies who participated in the training to get their preference on what type of survey they would like us to conduct. Action: Ms. Covelli and Ms. Wilson.

**Future Funding Subcommittee Update**

The future funding subcommittee updated the committee on the work they have been doing. Subcommittee members plan to meet with legislative stakeholders in the near future. They met with the Governor’s Public Safety Advisor; however there is a lot of pressure on the State’s general fund, so realistically it may be hard to get funding from this area. It may be in the committee’s best interest to reach out to individuals who are running for governor and their staff to see if they can help us with the general fund. Also it may be possible to pass a bill that requires traffic stop data to be collected, since our state agency is already collecting data, this could potentially help us get a renewal grant through the federal government. The committee also suggested that we may need to cobble together funding from different sources if we are unable to get a grant that will cover everything. This would include funding that may cover the trainings, community relations, and research.

**Other Business / Open Comments**

**Public Comments**

The committee discussed membership, specifically appointing Corvallis Police Chief Gary D. Boldizsar as a committee member. Chair Peterson will be in contact with Chief Boldizsar to formally invite him to become a committee member. It was also suggested by the committee that we invite specific individuals to come to the meeting as visitors, so they can give their input even if they are not official committee members. Action: Justice Peterson

Mr. Fidanque handed out a flyer to the committee members regarding the School to Prison Pipeline. This handout quoted Justice Peterson's work with the LECC.

3 Law Enforcement Contacts Policy and Data Review Committee (LECC) Meeting Minutes – July 14, 2010
The committee decided that September’s meeting will just include a Full Committee meeting, in order to work on developing the workshop that the committee will conduct in order to get agencies interested in collecting data for analysis. This meeting will be held from 10:00am-3:00pm and will not include subcommittee meetings.

**Adjournment**
The meeting was adjourned at 1:41 p.m.
