

**UNDERGRADUATE COMPUTER SCIENCE PROGRAM:
GRADUATE-LEVEL COURSE APPROVAL**

Name: _____ **PSU ID #**

--	--	--	--	--	--	--	--	--	--

Term: _____ **Course:** _____

Instructor: _____

I am an undergraduate PSU Computer Science major, and I wish to take a graduate-level Computer Science course. The instructor has already given me permission to enroll in this class.

I understand the Undergraduate CS degree program requires 20 credits of approved upper division Computer Science electives. The graduate course that I wish to take will apply on a credit-by-credit basis towards those 20 credits. I understand that ordinarily, graduate-level CS courses are offered for three credits, not four, so I may have to take additional credits to meet the approved CS elective credit requirements.

I understand that the University may choose to not count my graduate credits towards the upper division coursework required for the Bachelor's Degree, and it is my responsibility to petition with the Office of Degree Requirements if I wish to use the graduate credits in this manner.
