Portland State's Population Research Center released preliminary 2015 population estimates for Oregon and its cities and counties on Nov. 16. According to its July 1 population estimates, Oregon's population increased from 3,962,710 in 2014 to 4,013,845 in 2015, or by 51,135. This increase is around 7,500 higher than the population added in 2014, but it does not reach the peak pre-recession growth of 58,000 in 2006. The center has created <u>a new website</u> that traces the growth of Oregon's population from its founding in 1859 to today. <u>READ MORE</u>
