TIPS TO PREPARE FOR THE INTERVIEW SEASON!

1.  Have a peer review your resume, make sure it includes all of your recent experiences and training.

2.  Talk to your cooperating teacher about the interviews they have had.

3.  Schedule an observation with the school administrator. This will allow them to write a letter of recommendation for your file.

4.  When going to information sessions pay attention to your attire. This will be the first impression that the district representative will have.

6.  Check the employment section of the district sites as they will describe the application process as well as any current openings.

It is important to prepare for all options in the area – don’t limit yourself to one!
