HOW TO...

... connect a DVD or VCR player

1. Connect the red, white and yellow cables to the corresponding plugs in the wall panel.

2. Connect the red, white and yellow cables to the corresponding plugs in the “Video Out” section on the back of the player.

3. Press the ‘On’ button under Display, then the ‘Video’ button on the wall panel.

4. Please be sure to press the ‘Off’ button on the panel when you are finished.

... connect a computer

1. Attach one end of the monitor cable to the ‘Computer’ jack on the wall panel.

2. Attach the other end of the monitor cable to the monitor jack on the computer (Macintosh users need to have a VGA adapter (dongle) in addition to the cable).

3. If you want audio, connect one end of the audio cable to the black audio jack and the other to the headphones jack on your computer.

4. If you need Internet access you can either use wireless, or connect an Ethernet cable into the CAT5 jack on the panel and the Ethernet jack on your computer.

5. Press the ‘On’ button under Display, then the ‘PC’ button on the wall panel.

6. Please be sure to press the ‘Off’ button on the panel when you are finished.

... a document camera

2. Follow instructions for connecting a computer above, except Macintosh and audio.

3. Press the ‘Camera’ button on the document camera.

... an iPad

1. Follow instructions for connecting a computer above using an iPad VGA adapter to connect the iPad to the monitor cable.
