

## Faculty Senate Districts 2018-19

Faculty Senate districts are intended to facilitate communication between Faculty Senate and the Faculty as a whole. Each member of the faculty is assigned to a district with a senator from their division. Districts may or may not correspond to departments: some districts include Faculty from multiple departments, and some departments are divided among multiple districts. Districts don't have any formal constitutional role. Faculty are free to take questions or concerns for Faculty Senate to any senator (not limited to their district senator). Inclusion in the district list does ***not*** necessarily determine certification or divisional representation for Faculty Senate elections, or vice versa.
