Resolution (as amended) approved by Portland State University Faculty Senate, 5 December 2016.

The Faculty Senate endorses President Wiewel’s declaration that PSU is a sanctuary campus. This endorsement, however, should not be interpreted to imply that the Senate necessarily approves compliance with any future state law, federal law, or court order that would require the University to release confidential student information or otherwise assist in enforcement of federal immigration law. Should such a situation arise, we ask the President to consult with the Senate regarding the appropriate response.
