Family Geography Programs
C-Geo Grant Application

C-GEO Teacher Consultants are eligible to apply for grants for family geography programs in their schools. Individual grants will not exceed $500; groups of TCs may apply for group project grants up to $1,500.

These grants are intended for family geography programs, such as Family Geography Nights and Family Geography Challenges. Other programs addressing family geography will be considered.

Applications must follow these guidelines:

• Applications must be typed and follow the grant application format.

• Each item requested must be clearly stated and its total cost computed correctly. For example, if your request is software, please state the actual title and price of the software.

• A Final Report in the form of a poster is required within 30 days of completion of your project. You have the option of submitting a digital poster in the format of a PowerPoint file. It must be formatted in such a way that it can be printed in poster size. For your convenience you instructions for poster creation in PowerPoint and general poster presentation guidelines available on the C-GEO website under the “Final Reports” link on the grants page.

Some additional notes to keep in mind:

• Be realistic with your time line and adhere to it.

• Keep accurate records of your expenses, and keep receipts. NO item will be reimbursed without an original receipt indicating place, date and amount of item purchased.

• Those who have not received a previous grant will receive priority. However, you are eligible for multiple grant awards.

• There are no application deadlines. Applications will be reviewed at each Steering Committee meeting. Steering Committee meetings are in April, July, and October. We will respond to applications promptly after each meeting.
