The “Add/Drop Classes” will not be active until your registration period for the term selected!

-When this heading is available you can go here to add your classes or look up classes.

While looking for classes you will use the “Look-up Classes to Add”

You can highlight a subject or subjects and look in them, but I am going to show you an awesome trick to find Honors courses!

Click on “Advanced Search”
Step 1: Find the “Subject box” and the “Course Attributes” box

Step 2: Using the SHIFT KEY highlight ALL of the subjects and ONLY “University Honors Program” in “Course Attributes”

Hit the Search Courses button at the bottom of the page.
