

### Gerontology

By the year 2030, 1 in 5 Americans will be age 65 and older. This rapid change in our country's population is introducing exciting opportunities for professionals with the expertise to create new ways of understanding and embracing aging in the twenty-first century. Gerontology addresses the social issues, policies, and programs affecting the quality of life for our rapidly aging population. The Graduate Certificate in Gerontology enables professionals to empower the older adults in our community.

### A World of Career Possibilities

Employment possibilities in the field of aging services are vast, and many opportunities for entrepreneurship in this field are yet to be discovered. They include positions at international, federal, state, and local levels of government, as well as positions in nonprofit and for-profit organizations in many areas, including: housing and long-term care, planning for age-friendly communities, behavioral health, aging services, workforce development, and caregiving.

[Portland State University's Institute on Aging](#) (IOA) faculty are global leaders on the cutting edge of social science research on aging. Students have the opportunity to work directly with IOA faculty on publicly and privately funded research.

### Program Requirements

The [Graduate Certificate in Gerontology program](#) is offered by the Institute on Aging (IOA). The certificate requires a minimum of **18** credits, including three core courses (11 credits), two elective courses (6-8 credits), and an internship placement or an independent research project (1 or 3 credits). For more information and to **apply for the program**, please go here: <https://www.pdx.edu/institute-on-aging/how-apply>.

Students interested in pursuing an MPP degree and the graduate certificate in Gerontology are **REQUIRED** to contact faculty advisors in **BOTH** the [Institute on Aging](#) and [Public Policy](#) department to plan next steps.

### Experience

Gerontology program internships are **80** hours and must be with a program or agency that has a primary focus on older adults. Students must **complete an application form** and submit it to the IOA **ONE TERM PRIOR** to the start of the internship. The IOA director must approve all internships. In rare cases, a student might be approved to instead do an independent research project. The application and additional instructions are here: <https://www.pdx.edu/institute-on-aging/internship>.

**Gerontology Courses**

Below is a sampling of the Gerontology courses available. **Course offerings are not guaranteed and may vary by term.** Questions about whether a course counts as an elective that is not listed on this sheet must be directed to the IOA for more information and approval.

<b>COURSE</b>	<b>TITLE &amp; CREDITS</b>	<b>DESCRIPTION</b>	<b>TERM</b>
