* 3-term FTE is defined as the sum of Fall, Winter and Spring student credit hours divided by: 45 for undergraduate students, 36 for non-doctoral graduate students, and 27 for doctoral students. Lower, Upper and Graduate divisions are determined by course level, and FTE within each division is calculated strictly by student level using the formula above.

** Beginning Fall 2014, student credit hours of Intensive English Language Program moved from Applied Linguistics and are reported under Undergraduate Studies.

NOTE: FTE and percent totals may not sum, due to rounding.

SOURCE: Student Information System 4th week student data base summary file. Data include hours generated by all students who registered as of the 4th week of instruction, including auditors and students from whom no payment was received.

NOTE: On average, end-of-term enrollment increases by 1% over enrollment at the end of the 4th week of classes, which is the cut-off-date for all other enrollment data in the Fact Book and Statistical Portrait. End-of-term figures are used for long-term analyses because 4th week figures are unavailable prior to 1967-68. Beginning Fall 1991, students auditing all of their courses are included in the enrollment counts.
