DEGREES EARNED

2000	Ph.D., Anthropology, Northwestern University
1996	M.A., Anthropology, Northwestern University
1994	B.A., Anthropology, University of California, Berkeley (Highest Honors in Anthropology and in General Scholarship)
1991	Abitur, Gymnasium in den Pfarrwiesen, Sindelfingen, Germany

FACULTY APPOINTMENTS

2007-present	Associate to Full Professor, Department of Sociology, UC Berkeley
2000-present	Assistant, Associate, to Full Professor, Department of Demography, UC Berkeley
2009-2010	Professor, Department of Anthropology, UT Austin

PRIMARY LEADERSHIP ROLES

2021-Present: Executive Dean, College of Letters & Science

Executive Dean of UC Berkeley's largest College, comprising approximately 780 faculty across 38 departments in 5 divisions, serving approximately 21,000 undergraduate- and 2,500 graduate students. Reporting units include ROTC, College Writing, Undergraduate Advising, Office of Undergraduate Research and Scholarships, Academic Enrichment Office, and College Communications. Accomplishments include:

- Restructured undergraduate student advising, added staff, increased salaries, and increased the use of technology, which increased available appointments by 80%, raised student satisfaction, and improved staff morale & retention
- Created first-semester cohort experience (three thematically-linked courses, each fulfilling a different breadth requirement) called L&S Pathways, increasing student belonging & wayfinding in the college as well as strengthening networks of faculty who collaborate in the themes

- Leading L&S Futures, a multi-year project to redesign the general education requirements for a BA degree
- Oversaw the creation of a new department of Neuroscience
- Created and implemented an enrollment management plan for the college, better aligning student demand across departments with teaching capacity and available funding
- Academic lead on the construction of a new \$120M undergraduate academic building to house classroom, advising, and student support services (scheduled to open in April 2026)

2017-2021: Academic Senate Leadership

The UC Berkeley Academic Senate represents all ladder-rank faculty at Berkeley (nearly 1700), and participates in a comprehensive approach to shared governance for which Berkeley is known.

2019-2021, served a two-year cycle as **Vice Chair and then Chair of the Senate**. Worked closely with campus administrators to align the campus COVID response, including shepherding through academic policy changes, academic accommodations, and return to in-person instruction. Also reduced bias in recruitment to Senate leadership roles and increased transparency of decisions and processes

2017-2019, chaired the **Committee on Academic Planning and Resource Allocation**, the campus committee responsible for thinking comprehensively about university budget and finance, capital and space planning. In that role, co-chaired the financial strategies team of the campus strategic planning process, undertook a comprehensive review of staff headcount and compensation, and revised the academic program review process to incorporate capital planning

2018-2020: Chair, Department of Demography

Contemporaneously with serving in senior roles in the Academic Senate, chaired academic department of 6 Senate faculty members, 4 lecturers and 5 staff members. Developed the first fundraising plan for the department. Led revision of curriculum and changes to graduate outreach and admissions leading to more than 25% increase in applications from students from underrepresented communities.

2013-2017: Associate Dean, Social Sciences Division

Full-time appointment as associate dean for division of 12 departments and approximately 270 faculty. Primary areas of responsibility included budget and finance, academic planning, and faculty promotions. Developed tools to show department chairs how their budgets worked and what resources they could use. Developed a simplified allocation method for Temporary Academic Salary that improved efficiency by reducing staff workload, mid-year budget adjustments, and enrollment waitlists. Worked with departments to adjust curricular offerings to better align with student demand. Oversaw curricular alignment for a new joint degree program with Sciences Politiques (France). Supported development of a new interdisciplinary center the Social Science Matrix.

The next book (just at the beginning)

A Science of Men: Population Thought in Britain, France, and Germany, 1662 to 1928.

Demography is in some sense the first social science, and also the most fundamental: without population replacement, neither economy nor politics nor culture nor social structure could exist. But in the United States, demography is also one of the least institutionalized social sciences, and its intellectual history is rarely told. This book explores the emergence of modern concept of population and the 20th century discipline of demography, from the initial development of mortality statistics in the later 17th century to the founding of the International Union for the Scientific Study of Population in the interwar period.
