Public Sector Leadership for Sustainable Development: Framework and Propositions

1. **Globalized Interdependence**
   - Proposition 1: Public leadership for sustainable development is relational, requiring leaders to take into account the global consequences of acting within a place-bound institutional context.

2. **Visionary**
   - Proposition 2: Public leadership requires the creation of visions that successfully link past, present and future realities and transforms them into new possibilities.

3. **Integrative Competence & Continuous Learning**
   - Proposition 3: Public leadership requires the competence to use and integrate multiple disciplines in a continuous learning process.

4. **Public Good**
   - Proposition 4: Public leadership requires selfless service for the sake of a larger public good.

5. **Continuous Balancing**
   - Proposition 5: Public leadership requires continuous balancing of conflicting values in the midst of complex changing realities.
