SDHI ANNOUNCEMENTS

- Thank you to those who attended the Substance Abuse Collaborative Meeting last week! If you would like to be included on this topic specific list serve, please email Ryan Bender, rbender@pdx.edu.

- SDHI Research In Progress (RIP) Thursday, November 13th at 4-5:30pm in Rm 920, Market Center Building (1600 SW 4th Ave.)

  **Presenter:** Greg Townley, Department of Psychology, PSU

  **Title:** Peer support as a platform to community participation and independent living

  **Description:** Preparing a National Institute on Disability and Rehabilitation Research (NIDRR) Field-Initiated Research proposal to implement and evaluate a peer-based intervention aimed at encouraging community participation and independent living for individuals with psychiatric disabilities residing in congregate housing.

- Reminder of upcoming SDHI events:

  *Raising of America*
  
  Raising of America Screening and Panel Discussion
  
  Date: Monday, November 10, 2014, 7pm
  
  Location: Aladdin Theater
  
  Price: Admission $5*

  *We have 3 complementary tickets remaining, please email Ryan Bender, rbender@pdx.edu right away!

FUNDING OPPORTUNITIES

- **Pragmatic Research In Healthcare Settings to Improve Diabetes Prevention and Care (R18) (NIH/NIDDK);** Deadline: March 2, 2015;
  
  

- **National Institute of Justice (NIJ) Graduate Research Fellowship Program in the Social and Behavioral Sciences**; Deadline: December 24th; [https://ncjrs.gov/pdffiles1/nij/SL001127.pdf](https://ncjrs.gov/pdffiles1/nij/SL001127.pdf)

- **Medical Toxicology Foundation**; Research and Teaching Awards; [http://www.acmt.net/MTF_Innovative_Research_and_Teaching_Awards.html](http://www.acmt.net/MTF_Innovative_Research_and_Teaching_Awards.html)

- **Request for Proposals: Five Star and Urban Waters Restoration Grant Program**; Informational Webinar November 18th; Application Deadline: February 2, 2015; [www.nfwf.org/fivestar](http://www.nfwf.org/fivestar)

For more information on each of these, see below.

**FUNDING OPPORTUNITIES**

**Centers of Excellence on Environmental Health Disparities Research (P05) (NIH):**

This Funding Opportunity Announcement (FOA) encourages grant applications to support Centers of Excellence on Environmental Health Disparities Research to stimulate basic and applied research on environmental health disparities. The proposed research is expected to develop innovative approaches to understand environmentally-driven health disparities and improve access to healthy environments for vulnerable populations and communities. The proposed Centers are expected to support research efforts, mentoring, research translation and information dissemination.

**Mechanistic Studies of Pain and Alcohol Dependence (R01) (NIH):**

This Funding Opportunity Announcement (FOA) encourages applications that propose to conduct mechanistic studies on the relationship between excessive alcohol drinking, alcohol dependence and pain. An association between chronic pain conditions and alcohol dependence has been revealed in numerous studies with episodes of alcohol abuse antedating chronic pain in some people and alcohol dependence emerging after the onset of chronic pain in others. Pain transmission and alcohol reinforcing effects share overlapping neural substrates giving rise to the possibility that chronic pain states significantly affect alcohol use patterns and promote the development of dependence and addiction. In addition, long term alcohol intoxication and alcohol dependence induce pain symptoms and may exacerbate chronic pain arising from other sources. The objective of this FOA is to understand genetic, pharmacological and learning mechanisms underlying the association between the propensity to drink excessively alcohol and pain responses.

The National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) encourages NIH Research Demonstration and Dissemination Project grant (R18) applications from institutions/organizations to test practical, sustainable, acceptable, and cost efficient adaptations of efficacious strategies or approaches prevent and treat diabetes and/or obesity. Research must target the prevention or reversal of obesity, prevention of type 2 diabetes, improved care of type 1 and type 2 diabetes, or the prevention or delay of the complications of these conditions. The approaches tested should have the potential to be widely disseminated to clinical practice, individuals and communities at risk.

**Pragmatic Research In Healthcare Settings to Improve Diabetes Prevention and Care (R18) (NIH/NIDDK):** Deadline: March 2, 2015;

The purpose of this Research Demonstration and Dissemination Projects (R18) Funding Opportunity Announcement (FOA) is to support research to test approaches to improve diabetes treatment and prevention in existing healthcare settings. Applications are sought that test practical and potentially sustainable strategies, delivered in routine clinical care settings, to improve processes of care and health outcomes of individuals who are at risk for or have diabetes. The goal is that the research results will improve routine clinical practice and inform policy in representative healthcare settings.

The purpose of this Planning Grant (R34) is to support research to develop and pilot test approaches to improve diabetes treatment and prevention in existing healthcare settings. Applications should pilot test practical and potentially sustainable strategies, delivered in routine clinical care settings, to improve processes of care and health outcomes of individuals who are at risk for or have diabetes. The goal is that, if the pilot study shows promise, the data from the R34 will be used to support a full scale trial that could improve routine clinical practice and inform policy in representative healthcare settings.

The overarching goal of the Breast Cancer and the Environment Research Program (BCERP) is to support integrated scientific research to enhance our knowledge of environmental and genetic factors underlying breast cancer risk. This funding opportunity will support transdisciplinary research projects to investigate the influence of environmental exposures during specific time windows of susceptibility on breast cancer risk. Applicants must propose transdisciplinary research project that addresses one or more potential windows of susceptibility and facilitates the integration of experimental model and human studies to accelerate understanding of the contribution of environmental factors to breast cancer risk, the underlying mechanisms, and potential prevention strategies. Applications must also include community-academic partnerships with defined community engagement activities.

National Institute of Justice (NIJ) Graduate Research Fellowship Program in the Social and Behavioral Sciences; Deadline: December 24th; https://ncjrs.gov/pdffiles1/nij/SL001127.pdf

The NIJ Graduate Research Fellowship (GRF) program in social and behavioral sciences provides awards for research on crime, violence, and other criminal justice-related topics to accredited universities that offer research-based doctoral degrees.

The Science of Science & Innovation Policy (SciSIP) program supports research designed to advance the scientific basis of science and innovation policy. Research funded by the program thus develops, improves and expands models, analytical tools, data and metrics that can be applied in the science policy decision making process. For example, research proposals may develop behavioral and analytical conceptualizations, frameworks or models that have applications across a broad array of SciSIP challenges, including the relationship between broader participation and innovation or creativity. Proposals may also develop methodologies to analyze science and technology data, and to convey the information to a variety of audiences. Researchers are also encouraged to create or improve science and engineering data, metrics and indicators reflecting current discovery, particularly proposals that demonstrate the viability of collecting and analyzing data on knowledge generation and innovation in organizations.

Medical Toxicology Foundation; Research and Teaching Awards; http://www.acmt.net/MTF_Innovative_Research_and_Teaching_Awards.html

Intended to fund innovative projects that support the Foundation’s mission of an enriched understanding, enhanced patient care, and improved dissemination of knowledge regarding toxic exposures. Current research and education priorities include support for early-career investigators (fellows and young faculty) and support for the development of innovative approaches to delivery of medical toxicology education to healthcare providers and lay public.

The Center for Retirement Research Steven H. Sandell Grant Program;
Deadline: January 31, 2015; http://crr.bc.edu/about-us/grant-programs/steven-h-sandell-grant-program-2/

The Center for Retirement Research sponsors the annual Steven H. Sandell Grant Program for scholars in the field of retirement research and policy. The program is funded by the U.S. Social Security Administration to provide opportunities for junior scholars from all academic disciplines to pursue cutting-edge projects on retirement income issues. Priority areas include: Social Security, macroeconomic analyses of Social Security, wealth and retirement income, program interactions, international research, and demographic research.

Request for Proposals: Five Star and Urban Waters Restoration Grant Program: Informational Webinar November 18th; Application Deadline: February 2, 2015; www.nfwf.org/fivestar

The U.S. Environmental Protection Agency (EPA), the U.S. Forest Service (USFS), the U.S. Fish and Wildlife Service (USFWS), the Corporation for National and Community Service (CNCS), FedEx, Southern Company, Bank of America, and Pacific Gas & Electric Company (PG&E) are pleased to solicit applications for the 2015 Five Star & Urban Waters Restoration Grant Program which is managed by the National Fish and Wildlife Foundation (NFWF). The grant program is offered in conjunction with the Urban Waters Federal Partnership which gives priority to projects located in underserved, environmentally overburdened communities.

The Five Star & Urban Waters Restoration Grant Program seeks to develop community capacity to sustain local natural resources for future generations by providing modest financial assistance to diverse local partnerships. NFWF anticipates that approximately $2,000,000 in combined total funding will be available for projects such: wetlands creation and restoration; green infrastructure and stormwater management; citizen’s science and volunteer water monitoring; projects that reduce or eliminate trash from entering waterways; coastal habitat, riparian, urban forest restoration and other water quality protection and restoration projects in local communities.

NFWF will host a webinar for potential applicants on November 18, 2014. This RFP closes February 2, 2015. For more information go to www.nfwf.org/fivestar.

Bill & Melinda Gates Foundation; Grand Challenges Explorations: www.grandchallenges.org/explorations

Grand Challenges Explorations seeks innovative global health and development solutions. Applicants can be at any experience level; in any discipline; and from any organization, including universities, government laboratories, research institutions, non-profit organizations as well as for-profit companies.

Two-page proposals are being accepted online from September 4, 2014 until November 12, 2014 on the following topics:

- Surveillance Tools, Diagnostics and an Artificial Diet to Support New Approaches to Vector Control.
- New Approaches for Addressing Outdoor/Residual Malaria Transmission
- New Ways to Reduce Pneumonia Fatalities through Timely, Effective Treatment of Children
- Enable Universal Acceptance of Mobile Money Payments to Create an Economic Ecosystem that Will Help Lift the Poorest Out of Poverty
- Explore New Ways to Measure Brain Development and Gestational Age
- New Ways of Working Together: Integrating Community-Based Interventions

Initial grants will be US $100,000 each, and projects showing promise will have the opportunity to receive additional funding of up to US $1 million. Full descriptions of the new topics and application instructions are available at: www.grandchallenges.org/explorations.

National Research Center on Hispanic Children & Families; Summer Research Fellowship: Hispanic Scholars; Deadline: January 4, 2015; http://www.childtrends.org/our-research/latino-children-
The National Research Center on Hispanic Children & Families, led by Child Trends in partnership with Abt Associates, announced its summer research fellowship program for 2015. The goal of this program is to attract, develop, and expand the pool of emerging scholars focused on studying issues concerning low-income and vulnerable Hispanic children and families. This 12-week program is open to advanced Ph.D. students (third year or higher), and will provide selected students with the opportunity to carry out policy-relevant research in an applied setting. Applications are due no later than January 14, 2015.

PSU’s President’s Diversity Mini-Grants 2014-2015; Deadline: December 5th;
http://www.pdx.edu/diversity/the-presidents-diversity-mini-grant-program

PSU’s Office of Global Diversity & Inclusion and the Diversity Action Council seek to promote a positive campus climate for diversity, support the development of diversity curriculum, enhance communications, and assist in the recruitment and retention of a diverse student body, faculty, staff, and administration.

Support may be requested for diversity-related curricular development projects, campus events and programs, or research, including but not limited to the evaluation of campus diversity programs. The amount of the award will vary, depending on the nature of the project proposed and the number of meritorious applications received. Selected proposals will be awarded up to $500 each.

Applications for the President’s Diversity Mini-Grants are invited from all Portland State faculty, staff and departments. For more information please see the request for proposals via the link: http://www.pdx.edu/diversity/the-presidents-diversity-mini-grant-program; Deadline: December 5, 2014.

Request for Applications: Targeted Technical Assistance to Build the Business Capacity of Community-Based Aging and Disability Organizations for Integrated Services Partnerships; Deadline: December 8th at 11:59 EST;
http://www.acl.gov/Programs/CDAP/OPAD/TechnicalAssistance/docs/Targeted_TA_Announcement.pdf

The Administration for Community Living (ACL) is announcing an opportunity for up to ten (10) networks of community-based aging and disability organizations to participate in a learning collaborative and receive targeted technical assistance related to business acumen. Applicants must be seeking to build their business capacity and align their service capabilities in order to contract with integrated healthcare entities to provide community-based long-term services and supports and/or evidence-based preventive health programs and services. ACL is particularly interested in working with networks that include a diverse mix of organizations that serve people with disabilities and older adults. No direct funding will be provided through this initiative; rather, this collaborative will receive targeted technical assistance through a variety of different means, as noted within the announcement. Applications must be submitted electronically via email to Lauren.Solkowski@acl.hhs.gov by 11:59 p.m., Eastern Time, on Monday, December 8, 2014.

WORKSHOPS, LECTURES and CONFERENCE

Robert Wood Johnson Foundation (RWJF); Partnerships to Advance Population Health;
http://tinyurl.com/mlkkwkz

Please join the Robert Wood Johnson Foundation (RWJF) on November 7 from 12 p.m. – 1 p.m. ET for a First Friday Google+ Hangout: Partnerships to Advance Population Health. Panelists will discuss building bridges between hospitals and health systems on the one hand, and public health and other community actors on the other, to improve population health.
Robert Wood Johnson Foundation Webinar: Why Researchers Should Be on Social Media; Wednesday, November 12th;

Date: Wednesday, November 12, 2014
Time: 1:00 to 1:45 p.m. EST

Join the Robert Wood Johnson Foundation (RWJF) Human Capital Network next Wednesday, November 12, for an online discussion of how social media can boost the dissemination of your research to policymakers and the public. We will feature recent findings from a survey on researchers’ perceptions and use of social media, and provide strategies for establishing and maintaining your social media presence to expand the impact of your work.

Presenters include:

- **David Grande, MD, MPA**, Associate Director, *RWJF Clinical Scholars* program, University of Pennsylvania; Assistant Professor of Medicine at the University of Pennsylvania; *RWJF Health & Society Scholars* program alumnus
- **Janet Weiner, MPH**, Associate Director for Health Policy, Leonard Davis Institute of Health Economics at the University of Pennsylvania

After you’ve registered, phone and Web conferencing information will be emailed to you.

**Questions?** Email RWJF Human Capital Network Community Manager Kristin McNally at hcfeedback@rwjf.org.

Institute for Healthcare Improvement: Local & Regional Quality Improvement Initiatives Fair; Thursday, November 13th

Date: Thursday, November 13th
Time: 4:30-6:30pm
Location: PSU Smith Memorial Student Union, Rm 296/298
Cost: Free; refreshments and snacks provided

- An exciting opportunity to network with health professionals (Including medicine, nursing, public health, health administration, and other allied health professionals)
- Learn about internship and employment opportunities
- Engage in dialogue about current efforts to improve health and healthcare in our community

Sponsored by Portland State University and Oregon Health and Science University.

Co-occurring Child Maltreatment and Intimate Partner Violence: Results from families in the Child Welfare System; Presenter: Rachel A Fusco, PhD, MSW; November 17th; www.pdx.edu/ssw

Date: November 17, 2014
Time: 12 – 1 PM IN ARSC 620/630 (1800 SW 6th Ave; 6th floor)

Dr. Fusco is an Associate Professor and Chair of Direct Practice at the University of Pittsburgh. Prior to earning a PhD, Dr. Fusco was a social worker in the child welfare system, in the children’s program of a
battered women’s center, and in a residential treatment facility. Her research focuses on the mental health of young children who have experienced child maltreatment and exposure to intimate partner violence. She has received funding for her work from the Administration for Children and Families and from state and local government.

Oregon Public Health Association (OPHA); Place Matters Conference: Working together to create healthy communities; November 19-21st; http://beattygroup.cvent.com/events/place-matters-2014-working-together-to-create-healthy-communities/event-summary-6ee17747f8049a29a9d0b56b5b44ad5.aspx?utm_source=November+2014+newsletter+draft&utm_campaign=September+News&utm_medium=email

Date: November 19th-21st
Time: 7 a.m. (Nov 19th)-12 p.m. (Nov 21st)
Location: Hilton Portland, 921 SW 6th Avenue, Portland, OR 9204
Registration: $50 for conference participants; $25 for students and seniors
Limited scholarships are available. Please indicate your need for a scholarship in your registration.

Place Matters addresses the growing chronic disease epidemic in Oregon and the risk factors and conditions that drive it. Where we live, work, learn and play influence our physical and emotional health and well-being.

Please join us to learn about inspiring and innovative actions that are creating healthier communities – through partnerships and practical solutions. Local and national experts and leaders will share best practices, successes, and lessons learned.

The plenary and breakout sessions will explore these three conference themes:
- Building a Movement, the social and political will for policy and environmental change;
- Supportive Environments, creating community conditions that promote health and healthy options through policy and system change; and
- Collective Impact, addressing complex health issues by engaging multi-sector partners with a shared agenda and measures.

CALLS FOR PAPER AND ABSTRACTS

This special issue seeks to capture the efforts of social workers who are embedded in the realities of environmental degradation and its impact on the well-being of individuals, families, and communities across the globe. Manuscripts that provide documentation of the issue, evidence of an attempted intervention at any system level and the outcome (if it worked or not) are welcomed. Conceptual manuscripts of how to integrate and frame environmental concerns and consequences for vulnerable populations, particularly to students in educational settings, are also invited. Finally, manuscripts with evidence of successful curriculum adaptations to include environmental concerns are welcomed. All manuscripts must provide implications to the education of social workers and the profession, as well aid the international readership of this journal and their understanding of this common problem.

Call for Student Research Paper Contest: Preventing Chronic Disease Journal; Deadline: January 22, 2015; http://www.cdc.gov/pcd/images/studentpaper2015.pdf

Preventing Chronic Disease journal is looking for high school, undergraduate and graduate students as well as medical residency and post-doctoral fellows to submit papers relevant to the prevention, screening, surveillance, and/or population-based intervention of chronic diseases, including but not
limited to arthritis, asthma, cancer, depression, diabetes, obesity, and cardiovascular disease. Papers must be received electronically no later than 5:00 PM EST on January 22, 2015. Please visit http://www.cdc.gov/pcd/images/studentpaper2015.pdf for complete submission instructions.

RESOURCES

The Asian Smokers’ Quitline is a free nationwide Asian-language quit smoking service operated by the Moores Cancer Center at the University of California, San Diego. The Quitline offers self-materials, referral to local programs, one-on-one telephone counseling to quit smoking, and a free two-week starter kit of nicotine patches.

JOB OPPORTUNITIES

University of Oregon; Health Promotion Specialist, University Health Center; http://jobs.uoregon.edu/unclassified.php?id=4917&utm_source=November+2014+newsletter+draft&utm_campaign=September+News&utm_medium=email

The Health Promotion Specialist is a staff member in the Health Promotion Department in the University Health Center (UHC) at the University of Oregon. The Health Promotion Department serves as the coordinator for the primary prevention efforts of the UHC with the goal of improving the health outcomes for our students and to create a healthy environment. This is accomplished by providing universal, selective, and indicated prevention services for students in support of the overall mission of the University.

The Health Promotion Specialist maintains collaborative relationships with student leaders, campus, faculty, staff, and community partners to develop a comprehensive, multidisciplinary approach to health for students. This position is responsible for developing strategic plans, goals, and measurable objectives for health promotion programs and services. This requires developing, implementing and analyzing of student health surveys that: 1. provide baseline data and follow-up health data, 2. identify program needs and priorities, 3. evaluate the effectiveness of programs and services and 4. track trends in student health status and behavior.

Oregon Health Authority;

In conjunction with the Chief Medical Officer the Policy Innovation Analyst will work with the Transformation Center, Quality Council, other medical groups and stakeholders to identify and develop policy focusing on the Triple Aim objectives of improving the lifelong health of all Oregonians, increasing the quality, reliability and availability of care, and lowering or containing the cost of care so it is affordable for everyone. The Policy Innovation Analyst supports and monitors innovative policy development, alignment across the OHA and delivery system reform work under the State Innovation Model Grant and communicates regularly with a variety of audiences, both locally and nationally on progress and
milestones. This position will be also help with strategic planning for the Office of the Chief Medical Officer and be responsible for building work plans and Office processes to support strategic goals.

- **Principal Executive/Manager F (Chief Information Security Manager);**

The Chief Information Security Officer works with all levels of management in the Department of Human Services (DHS) and the Oregon Health Authority (OHA) and oversees all ongoing activities related to the development, implementation, maintenance of and adherence to all policies and procedures covering security, privacy, and access to client information in compliance with federal and state laws and agency information security and privacy practices.

The mission of the Information, Privacy and Security Office is to support all agency departments by “assisting people to become independent, healthy and safe” by providing leadership and services that assist DHS and OHA in securing the confidentiality, integrity and availability of its information assets.

**National Science Foundation (NSF); Arctic Observing Network, Program Director;**
[https://www.usajobs.gov/GetJob/ViewDetails/385889400](https://www.usajobs.gov/GetJob/ViewDetails/385889400)

The NSF is seeking candidate(s) for an Arctic Observing Network (Program Director) within the Arctic Observing Network (AON) Program in the Arctic Sciences (ARC) Section, Division of Polar Programs (PLR), Directorate for Geosciences (GEO), Arlington, VA.

ARC supports scientific research in the Arctic, related research, and operational support. Science programs include disciplinary, multidisciplinary, and broad, interdisciplinary investigations directed toward both the Arctic as a region of special scientific interest and a region important to global systems. The goal of AON is to enhance the environmental observing infrastructure required for the scientific investigation of arctic environmental system change and its global connections. AON encompasses physical, biological, social, cultural, and economic observations, including indigenous knowledge, of the land, ocean, atmosphere (troposphere and stratosphere) and social systems.

For more information about ARC, please visit [http://www.nsf.gov/geo/plr/arc/index.jsp](http://www.nsf.gov/geo/plr/arc/index.jsp).

**PCC Health Studies Full-time Faculty Position;**
[https://jobs.pcc.edu/applicants/jsp/shared/frameset/Frameset.jsp?time=1415638319471](https://jobs.pcc.edu/applicants/jsp/shared/frameset/Frameset.jsp?time=1415638319471)

This is a full time (1.0 FTE) probationary faculty position commencing September 2015 at Portland Community college. Hours of work may include evening or weekend teaching assignments. Initial assignment will be at the Sylvania Campus.

To view job descriptions, create a user account, and apply online, visit our website at [http://jobs.pcc.edu](http://jobs.pcc.edu).

More information is available at: [http://www.pcc.edu/hr/employment/faculty-information.html](http://www.pcc.edu/hr/employment/faculty-information.html)

**Samaritan Health Services Living Well Coordinator Position;** also listed as Health Ed and Engagement Coordinator;
[http://www.samhealth.org/employment/employmentopportunities/openings/Pages/default.aspx](http://www.samhealth.org/employment/employmentopportunities/openings/Pages/default.aspx)

Improves individual and community health through coordination of community-based health programs, such as Living Well with Chronic Conditions, and partnerships using the Community Health Improvement Partnership (CHIP) model as well as other public health program models. Identifies, educates and engages community members (volunteers) as local leaders in improving community health. Cross-trains to increase team flexibility and be able to respond to community needs.
