SDHI ANNOUNCEMENTS

- SDHI Research In Progress resumes on October 3rd at 12-1:30pm in Rm 413, Market Street Building (1600 SW 4th Ave.) Presenters: Dr. Lew Banks and Dr. Junghiee Lee, PSU School of Social Work

- We’re still recruiting for PSU RIP presenters for November 9th, please contact Ryan Bender, rbender@pdx.edu, to present.

- SDHI presents at the Social Sustainability Colloquium on October 4th from 2-4pm in ARSC Rm 660. Presenters: Dr. Christina Nicholaidis, Dr. Matthew Carlson, Dr. Paula Carder, Dr. E. Roberto Orellana, and Dr. Ginny Garcia-Alexander

FUNDING OPPORTUNITIES

- Research on the Health Determinants and Consequences of Violence and its Prevention, Particularly Firearm Violence (NIH)

- The Bill & Melinda Gates Foundation – Grand Challenges Explorations; http://www.grandchallenges.org/Explorations/Pages/ApplicationInstructions.aspx

- Disaster Mental Health Research Intervention Center (P60) (NIMH); http://grants.nih.gov/grants/guide/rfa-files/RFA-MH-14-090.html

- Nutrition and Alcohol-Related Health Outcomes (NIH);

- New York Community Trust; Fahs-Beck Fund Faculty Research Grant; http://www.fahsbeckfund.org/grant_programs.html

WORKSHOPS, LECTURES, AND CONFERENCES

- “CBPR Institute for Health Equity: Building Effective and Sustainable Partnerships to Improve Community Health;” Video recordings of keynote presentations available: http://cbprinstitute.wordpress.com/

For more information on each of these, see below.
SDH ANNOUNCEMENTS

SDHI RIP

The Social Determinants of Health Initiative Research In Progress Seminars at the PSU campus will **start October 3rd in Room 413, Market Street Building** (1600 SW 4th Ave.), unless otherwise noted. To kick-off the year Dr. Lew Banks and Dr. Junghee Lee will discuss an experimental design for testing an “app-based” intervention for Asian immigrant parents.

The 2012-13 RIP schedule is as follows:

1st and 3rd week of the month: Thurs 12-1:30pm
2nd and 4th week of the month: Wed 9am-10:30am

Note: The RIP series offers academic and community researchers an opportunity to receive constructive feedback from colleagues on planned or ongoing research projects related to social determinants of health. This is a great opportunity for peer mentorship and support. Although you can expect to learn a great deal by attending regularly, RIPS are not intended to be educational workshops or public presentations.

**Still looking for PSU RIP presenters for November 9th.** Please contact Ryan Bender, rbender@pdxl.edu with the following information:

1. Are you willing to present this Fall term?
2. Do you have a preference between the Wed 9am or Thurs noon slots or can you do either one?
3. Are there particular dates you wish to present?
4. Are there dates that are out of the question do to conflicts?

SDHI presents at the Social Sustainability Colloquium on October 4th from 2-4pm in ARSC Rm 660. **Presenters:** Dr. Christina Nicholaidis, Dr. Matthew Carlson, Dr. Paula Carder, Dr. E. Roberto Orellana, and Dr. Ginny Garcia-Alexander. We will highlight the SDHI Initiative, current projects and the upcoming Social Sustainability book.

FUNDING OPPORTUNITIES

**Research on the Health Determinants and Consequences of Violence and its Prevention, Particularly Firearm Violence (NIH)**

The National Institutes of Health is opening funding opportunities calling for research on violence with particular focus on firearm violence. Applications will be accepted through fiscal year 2016. NIH developed this call for proposals in response to the Presidential memorandum <http://www.whitehouse.gov/the-press-office/2013/01/16/presidential-memorandum-engaging-public-health-research-causes-and-preve> in January 2013 directing science agencies within the U.S. Department of Health and Human Services to fund research into the causes of firearm violence and ways to prevent it.

NIH plans to fund research projects over the next three years beginning in fiscal year 2014 into the causes and consequences of violence as it relates to the health of individuals and communities. The goal is to identify evidence-based strategies for preventing violence and incorporating them into clinical and community settings.
Description: The initiative offers scientists, inventors, and entrepreneurs from around the world the opportunity to pursue unconventional ideas that could transform health and agricultural development in the world's poorest countries. Projects will have one opportunity to apply for a follow-on Phase II grant of up to $1,000,000. The topics in this round are

- Inciting Healthy Behaviors: nudge, disrupt, leapfrog, reach
- Novel Enabling Tools and Models Supporting Development of Interventions for Enteric Dysfunction
- Innovations in Feedback and Accountability Systems for Agricultural Development
- The “One Health” Concept: Bringing Together Human and Animal Health for New Solutions
- Develop the Next Generation of Condom

Deadline: November 12, 2013
Amount: Up to $100,000 over 18 months.
Eligibility: Open to both foreign and domestic non-profit organizations, for-profit companies, international organizations, government agencies and academic institutions. Individuals are not eligible to receive grants from the foundation.

Disaster Mental Health Research Intervention Center (P60) (NIMH):

The National Institute of Mental Health (NIMH) announces a unique opportunity for investigators to utilize diverse but related infrastructure, technology, human, and material resources to plan and implement multiple research projects directed toward improving mental health response to disasters and other emergency events.

This initiative seeks to leverage the existing disaster mental health response infrastructure and workforce to study the integration of evidence-based and promising interventions into current mental health response to disasters. A flexible funding mechanism will allow for pre-planning (in advance of large scale emergencies) between researchers and disaster response providers to develop rigorous intervention and services research studies.

Nutrition and Alcohol-Related Health Outcomes (NIH):

This Funding Opportunity Announcement (FOA) encourages applications that propose to examine associations between nutrition and alcohol-related health outcomes in humans and animal models. The goal of this FOA is to stimulate a broad range of research on the role of nutrition in the development, prevention, and treatment of a variety of alcohol-related health outcomes including alcohol use disorder and chronic disease.

New York Community Trust; Fahs-Beck Fund Faculty Research Grant:
http://www.fahsbeckfund.org/grant_programs.html

Up to $20,000 total. Deadline November 1, 2013
Seeks to support the research of faculty members affiliated with non-profit human service organization. Area of interest include studies to develop, refine, evaluate, or disseminate innovative interventions designed to prevent or ameliorate major social, psychological, behavioral or public health problems affecting children, adults, couples, families, or communities, or studies that have the potential for adding significantly to knowledge about such problems.
WORKSHOPS, LECTURES and CONFERENCE

“CBPR Institute for Health Equity: Building Effective and Sustainable Partnerships to Improve Community Health;” [http://cbprinstitute.wordpress.com/](http://cbprinstitute.wordpress.com/)

Video recordings of keynote presentations available on major themes covered each day (with multiple sessions on each day):

- Creating, Building and Maintaining Partnerships
- Collaborative Study and Intervention Design
- Collaborative Data Collection, Analysis, and Dissemination
- The Intersection of CBPR, Policy and Social Change
- Fundraising and Sustainability for CBPR
