General Information

There are lots of steps to getting settled as adjunct faculty in the PSU School of Social Work. This handbook reviews material related to your instructional role and the letter from John Barnett, Operations & Administrative Services Manager, outlines the administrative processes (Appendix A). Please read it carefully if you have not already done so.

PSU adjunct faculty are represented by the PSU Faculty Association union, which provides significant benefits to adjunct faculty. More information about membership, benefits, and rights is available on their website at http://psufa.org/.

If you are teaching in our Salem, Eugene, Central Oregon or Southern Oregon sites there is more detail about the unique features of each site in the Distance Option Faculty Handbook and on the MSW Program webpage.
Course Information

MSW Program Syllabi
All faculty are expected to use SSW course syllabi that have been approved by the MSW Program Faculty. You can obtain that syllabus from the campus lead instructor or from Thet Mar Win (twin@pdx.edu). Certain sections of the syllabus can be customized and more detail about that is contained in the course syllabus templates, which can be downloaded from the Teaching link in the SSW Faculty and Staff Web Center. You will need your ODIN name and password to login.
Once your course syllabus is complete, please upload an electronic PDF directly to the syllabi folder through the Teaching link in the Faculty-Staff Web Center or send your syllabus to Josh Goodson, the SSW Office Manager, at goodson3@pdx.edu.

Class Sizes, Wait lists and adding students to full courses
We manage class sizes through the registration process and at times students may not be able to register for a specific section that they want. If students contact you, please direct them to email mswregis@pdx.edu where they can explain their situation. We try hard to accommodate students’ needs. Most electives have a waitlist and they will have to follow that process.
Writing Expectations and Support
The MSW Faculty made a decision (2020) to standardize the writing expectations across all courses, due to inconsistency between faculty in terms of APA. The following statement is to be included in every syllabus. If you require advanced APA standards or other writing expectation they need to be explicitly identified in the syllabus.

MSW Scholarly Writing Expectations
The MSW program expects written assignments to demonstrate engagement with the literature and to use the following style components drawn from the Publication Manual of the American Psychological Association 7th Ed. (hereafter referred to as the APA manual). Purdue Online Writing Lab has APA style guidelines.

Expected APA Style Components
1. Basic Paper Formatting – 12-point font (preferred Times New Roman), one-inch margins, 8-1/2 X 11-inch white paper; double-spacing with indentation between paragraphs; no extra space between paragraphs; left margin justification; correct page numbering; title page.
2. Grammar – Correct spelling, sentence structure, syntax, proper pronouns, active vs. passive voice, punctuation, etc. (note: base level grammar expectations specified in the APA manual are also core in every grammar text).
3. Engagement with the Literature and APA Formatting – Demonstrate comprehension of the relevant literature through the critical application of the material to your work and/or thinking. You might discuss, critique, reflect on the existing literature as it relates to your topic or ideas. You might also think about placing your writing and ideas in conversation with the literature. Formatting involves three components:
   ○ Proper summarization, paraphrasing or quoting of information sources (peer-reviewed literature, books, book chapters, reports, media, etc.);
   ○ In-text citations for summarization, paraphrasing or quoting, in proper format.
   ○ Reference Section containing all sources cited in text, and in full, proper format.
4. Advanced Optional APA Formatting – (dependent upon instructor’s requests):
   ○ Running head; Abstract; Introduction; Headings and sub-headings;
   ○ Summary/Conclusion.

Additional style expectations beyond APA components may be specified by the instructor for each writing assignment.

Writing Support
The MSW Program offers Writing Support Services for all students. These services are tailor-made to the request of each student, and can range from feedback on a single question about formatting to a full paper review for APA style compliance. Details about writing support, valuable writing resources, and connections to writing support people can be accessed on the Writing Support Services page.
FERPA Student Record Privacy Information
Please review the tutorial of the Family Educational Rights and Privacy Act (FERPA).

Ordering Books
In most cases faculty will need to order their own books. If there are multiple sections of the course the “lead” instructor may have ordered them for the whole group, so please check with them before contacting the bookstore. Please note there is a Federal law requiring textbooks to be listed when students register for courses and there is often a long lead time in getting books in the bookstore, so you are requested to order your books at least one term prior to the course being offered, if possible.

Book orders can be placed at https://www.emailmeform.com/builder/form/FM44t64d94h or send an email to psuadoptions@gmail.com. You can also contact Maria Gonzalez-Cress, the PSU Bookstore Specialist, at 503-546-1769.

If you will use e-textbooks or a textbook is not required, the Bookstore still needs to be informed

For information on using the library course reserve process for articles for your course, see the information below on the PSU library services.

Disability Resource Center - Accessibility and Inclusion for students with Disabilities
PSU and the School of Social Work value diversity and inclusion; we are committed to fostering mutual respect and full participation for all students. Our goal is to create a learning environment that is equitable, usable, inclusive, and welcoming. All syllabi need to include the Accessibility and Inclusion for Students with Disabilities statement that is in the master syllabus template. If a student is registered with DRC and has academic accommodation, an email will be sent to your pdx.edu account outlining the expected accommodations. It is the instructor’s responsibility to meet these accommodations, unless it changes the nature of the learning, and to consult with DRC as needed if there are issues.

The DRC wants all accommodations to be documented, so if the student requests an accommodation not outlined in the DRC email, please send the student back to DRC. If you have concerns about the requested accommodation please consult with the MSW Program Director or the Disability Resource Center.

If a student requests accommodations or identifies themselves as a person with a disability or medical condition, who has not registered with the DRC, encourage the student to contact the DRC (503-725-4150 or drc@pdx.edu). The DRC recommends that we not make accommodates outside of those documented in the DRC email. Please contact the DRC if you have questions/concerns.

You can view DRC information videos for faculty and staff at the following link.

“Incomplete” Grades - This is the graduate policy on incompletes

1) An incomplete grade is only given when students, due to circumstances beyond their control, have not completed some definite course requirement. The initiative rests with the student to request an incomplete grade. Students do not have a right to receive/demand an Incomplete grade. The option of assigning an Incomplete grade is at the discretion of the instructor when the following criteria are met: (see the full policy in the MSW Student Handbook)

2) The quality of the work to date is satisfactory, but some essential work remains. In addition, the student must have successfully completed most of the course work at the time the student requests the Incomplete, with a minimum grade up to that point of B-.

3) Reasonable justification for request. Reasons for assigning the Incomplete must be acceptable by the instructor. The circumstances should be unforeseen or be beyond the control of the student. The instructor is entitled to request appropriate medical or other documentation to validate the student’s request.

4) Incomplete grade is not a substitute for a poor grade.

5) Written agreement. A written or electronic agreement will be endorsed by both the instructor and student. A template "Incomplete Contract" is available on Registrar’s website http://www.pdx.edu/registration/sites/www.pdx.edu.registration/files/Incomplete_Guidelines_Contract.pdf

Request for Incomplete Form is completed by the student and discussed with the instructor prior to the end of the course. The instructor will determine if the request meets University policy, as indicated in the criteria listed above, and if approved a due date for the remaining work will be determined and the form signed by both instructor and student. In some cases faculty may want to note when you will grade the final submission.

The instructor will keep the original signed form and distribute copies to the student and the student’s advisor. Upon completion of the work the instructor will grade the work, enter the grade into the PSU grading system, and return the form to the student indicating the final grade and the date the grade was entered.

By agreeing to an incomplete grade you are committing to a longer-term engagement with the student, sometimes up to a year. This will require you to be available and provide ongoing contact information even if you are no longer teaching. If you are no longer teaching and do not have access to submit a grade change please contact the MSW Program Director with the final grade.

If the instructor has further questions or needs clarification, please contact the MSW Program Director or Student Affairs Director before finalizing.

Students who receive an incomplete in SW 530: Skills for the Helping Process – Individuals and Families or SW 515: Skills for the Helping Process – Groups will be allowed to continue in their practice courses and field placements. Students who receive an incomplete in SW 550: Research and Evaluation I will be allowed to
enroll in SW 551: Research and Evaluation II. Failure of these courses will continue to require students to stop out of field and the practice sequence courses.
