Revision Guidelines

If you choose to revise your essay you must produce a *substantial* revision. Below are the guidelines for revisions.

- You cannot simply change errors that I marked.
- You must go back to your sources and work with them more closely.
- You may have to do additional research.
- You may need to go to the Writing Center.
- You must meet with me.
- You must write a 1-page, double-spaced cover letter for your revised essay that answers the following questions:
  
  ◊ What did you notice about your essay that you hadn’t noted before?
  ◊ What did you decide to revise in your essay?
  ◊ How did you approach the revision process?
