What are the barriers you encounter with getting around in your neighborhood on a typical day?

For example: Lack of sidewalks, streets are unpaved, steep hills, lack of curb ramps, I don’t feel safe, etc.
Based on feedback we’ve come up with a few recommendations, and we’d like to know what you think of them.

- Are these recommendations helpful?
- Would you support them?
- Are they going in the right place?
- What do you not see among those recommendations?
